## ABOUT THE GUIDEONE CENTER FOR RISK MANAGEMENT

**IN 1999, THE GUIDEONE CENTER FOR RISK MANAGEMENT WAS ESTABLISHED TO HELP SAFEGUARD CHURCHES** and faith-based schools by providing them with the industry's broadest array of risk management services.

The Center is dedicated to helping these organizations by providing a wealth of information, tools, services and resources to help minimize risks and prevent losses.

### Online Resources

The Center for Risk Management Web site, at **www.guideone.com**, provides free safety information on a variety of topics. Church customers also receive free access to SafeChurch, the premier church safety Web site created jointly by GuideOne and Group Publishing, at **www.safechurch.com**. In addition, GuideOne makes free e-newsletters on important safety topics available to all customers.

### Published Resources

The Center for Risk Management frequently publishes articles on timely safety topics in leading trade journals in the church and senior living community fields. In addition, GuideOne authored the book *The Missing Ministry: Safety, Risk Management and Protecting Your Church* to assist its church customers in starting a safety ministry and addressing the key risks facing churches today.

### Training Opportunities

GuideOne offers online training on a variety of church safety topics, including child abuse prevention, fall prevention, van driver training and starting a safety ministry. New training modules are added on a regular basis, so be sure to check **www.safechurch.com** for more information.

### Services to Help Minimize Risk

To further enhance safety, security and efficiency, the GuideOne Center for Risk Management offers educational seminars and phone consultation for customers and their employees. We also have established relationships with key providers of products and services related to the risk management field.
